ABOUT ME

I am a **full-stack web developer** with a **solid foundation in programming** and a **previous background as a 3D technical artist**. My experience has allowed me to combine **creativity** and **technology**, working with tools such as **Unity, C#, shaders, and automation systems to optimize production processes**.

Currently, I specialize in full-stack development with technologies such as **HTML**, **CSS**, **JavaScript**, **React**, **PHP**, and **MySQL**, creating **functional, adaptable applications** focused on user experience.

I am known for being **organized**, **solution-oriented**, and **results-driven**, with strong **learning skills** and the ability to **adapt** to dynamic environments. My goal is to continue growing as a web developer, contributing both my technical knowledge and my visual sensibility to **design efficient, appealing, and high-impact digital solutions.**
